

# Physician Testimonials

**Dr. Swati Dave-Sharma, Pediatric Endocrinologist Lincoln Hospital, Bronx, NY**

“ Our Clinic staff and certified Diabetes Educators have worked closely with House Calls and consider the Telehealth team to be part of our own clinical team. We find access to the Telehealth data to be a valuable and time-saving device in the provision of care and have used the convenient online summary reports to communicate timely information as part of our case conferences. As Director of Lincoln’s Pediatric Endocrinology Clinic, I believe these services to be an important contribution to our continuum of care”

**The Telehealth Solution has proven results!**
